EXAMINER'S AMENDMENT

Continued Examination Under 37 CFR 1.114

(1)

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 14, 2006 has been entered.

(2)

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gang Luo on September 28, 2006.

The application has been amended as follows:

Claim 10 has been cancelled.

(3)

As per the interview, product claim 10 has been cancelled to place the case in condition for allowance.

(4)

The drawings filed September 10, 2004 are approved.

(5)

The following is an examiner's statement of reasons for allowance: The prior art discloses picking up an image of the end face of a ceramic honeycomb to recognize the cells of the honeycomb for drilling a sheet attached to the honeycomb at the recognized cells, i.e. using all the recognized cells such that the image of each recognized cell is used to drill the sheet at the position of that recognized cell. The prior art of record does not disclose or suggest forming the ceramic honeycomb with at least one reference cell which has different shape of its opening part than the other cells of the honeycomb and using only the at least one reference cell as a reference point to determine the positions corresponding to the opening parts of the reference cell(s) and the other cells for drilling the attached sheet at the determined positions of the reference cell(s) and the other cells, as claimed; i.e. using only the reference cell(s) to drill the sheet at positions of that cell as well as at positions of other cells of different shape.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
